BOLLE

MENSOLA SP. 3,6 **P 18 - 20,8 cm**
SHELF TH. 3.6 **D. 18 - 20.8 cm**
ÉTAGÈRE ÉP. 3,6 **P 18 - 20,8 cm**
ПОЛКА ТОЛЩИНОЙ 3,6 **ГЛ. 18 - 20,8 cm**

FISSAGGIO SUPPORTO PER MENSOLE IN LEGNO P 18 - 20,8 cm

FIXING OF SUPPORTS FOR WOODEN SHELVES D. 18 - 20.8 cm

FIXER SUPPORT POUR ÉTAGÈRES EN BOIS P 18 - 20,8 cm

МОНТАЖ КРЕПЛЕНИЙ ДЛЯ ДЕРЕВЯННЫХ ПОЛОК ГЛ. 18 - 20,8 cm

ATTENZIONE! Verificare la tipologia di parete prima del fissaggio.

ATTENTION! Check the wall strength before the installation.

ATTENTION! Vérifier le type de mur avant de la fixation.

ВНИМАНИЕ! Проверьте прочность стены перед установкой.

IT

1. Rilevare sulla parete i punti dove adranno eseguiti i fori per il fissaggio dei perni di sostegno.
2. Con il trapano forare il muro. Il diametro dei fori deve essere uguale a quello dei tasselli.
3. Avvitare i perni all'interno dei tasselli, precedentemente fissati, con una chiave inglese (a).
ATTENZIONE! I perni devo essere in bolla tra loro.
4. Introdurre il ripiano in corrispondenza dei perni (b), precedentemente fissati a muro.

UK

1. Mark the places on the wall where to drill the holes for fixing the fastening pins.
2. Drill the holes in the wall. The diameter of the holes must match the diameter of the screw plugs.
3. Screw the fastening pins into the screw plugs, précédemment fixé, avec une clé anglaise (a).
ATTENTION! The fastening pins must be leveled.
4. Put the fastening pins (b) into the corresponding holes behind the shelf.

FR

1. Mettre sur le mur les points où seront réalisés les trous pour la fixation des broches de support.
2. Percer des trous dans le mur. Le diamètre des trous doit être égale à celle des chevilles.
3. Visser les broches dans les chevilles, précédemment fixé, avec une clé anglaise (a).
ATTENTION! Les broches doivent être à niveau entres elles.
4. Mettre l'étagère en correspondance avec les repères (b), préalablement fixés au mur.

RU

1. Отметить на стене точками места, где будут выполнены отверстия для крепления опорных штифтов.
2. Просверлить дрелью отверстия в стене. Диаметр отверстий должен быть такой же, как дюбель.
3. Вкрутить штифты в дюбеля, предварительно установленные, с помощью гаечного ключа (a).
ВНИМАНИЕ! Штифты должны быть на одном уровне друг с другом.
4. Установите полку с помощью штифтов (b), закрепленных к стене.

3

Arbi non si assume la responsabilità se il muro o i tasselli e viti usati dall'installatore non sono appropriati.

Arbi accepts no liability if the wall or wall plugs and screws used by the installer are not appropriate.

Arbi décline toute responsabilité si les chevilles et les vis utilisées par l'installateur ne sont pas appropriées.

Arbi не несет ответственности, если дюбели и шурупы, используемые установщиком, не соответствуют требованиям.

tasselli non forniti
dowels not supplied
chevilles non fournies
штекеры не входят в комплект поставки

5

L'azienda non fornisce la ferramenta per il fissaggio a muro dei supporti ed è consigliata un'accurata valutazione (a cura dell'installatore) della tipologia di tasselli e viti da utilizzare. La vastità di casi e tipologie d'impiego su diversi tipi di supporti e laterizi non ci consente di stabilire un fissaggio standard.

The company does not supply hardware for fixing the supports to the wall, and a careful assessment (by the installer) of the type of dowels and screws to be used is recommended. The wide variety of cases and types of use on different types of supports and bricks does not allow us to establish a standard fixing.

L'entreprise ne fournit pas de matériel pour la fixation des supports au mur, et il est recommandé de procéder à une évaluation minutieuse (par l'installateur) du type de chevilles et de vis à utiliser. La grande variété de cas et de types d'utilisation sur différents types de supports et de briques ne nous permet pas d'établir une fixation standard.

Компания не поставляет фурнитуру для крепления опор к стене, поэтому рекомендуется тщательная оценка (монтажником) типа дюбелей и шурупов, которые будут использоваться. Большое разнообразие случаев и типов использования на различных типах опор и кирпичей не позволяет нам установить стандартное крепление.
